And
Enforcement Procedures**

Chapter 19, Rules Construction and Applicability

Adopted August 18, 1982

Amended June 20, 1985

19.01 Approving Authority

The District's Executive Director in all matters with respect to which the approval or consent of the District is required by these rules, and all references in these rules to approval by the District shall be deemed to include approval by the Executive Director or his authorized agent, appropriate subordinate employees or departments of the District.

19.02 Applicability of Rules to Contract Areas

- (1) The District's boundaries under Sec.66.888, Stats., are subject to modification as the new areas become more likely to receive sewerage treatment service from the District. Yet, the District is not likely to expand beyond the Metropolitan Sewerage District Service Area by the year 2000. To ensure compatibility of sewerage systems and discharge connections, the District deems it in the District's best interests to apply its rules to the Metropolitan Sewerage District Service Area as provided in Subsec. (2).
- (2) The District's Rules apply throughout the Metropolitan Sewerage District Service Area, irrespective of whether the territory is served by the District sewerage system.

19.03 Severability of Specific Sections

- (1) The determination by any court that any section or subdivision of any sequence or phrase thereof is unauthorized by law shall not invalidate any other section or subdivision of these rules.
- (2) The descriptive headings of the articles throughout these rules are for convenience only and shall have no effect upon an rule.
